Version 4.02.01 | Release Notes

Last Modified on 05/15/2024 4:29 pm EDT

Movius MultiLine iOS Apps v. 4.02.01 Release Notes

We update MultiLine applications quarterly with new features and improvements. To stay up to date and make the most of your MultiLine experience, please read on and learn what's new with the MultiLine for Intune app.

> Movius reserves the right to make updates to the production deployment schedule and release content at any time prior to the release.

Production Deployment

- MultiLine for Intune iOS v. 4.02.01 | April 6, 2024
- Movius MultiLine iOS v. 4.02.01 | April 12, 2024

iOS Intune SDK Upgrade (MultiLine for Intune only)

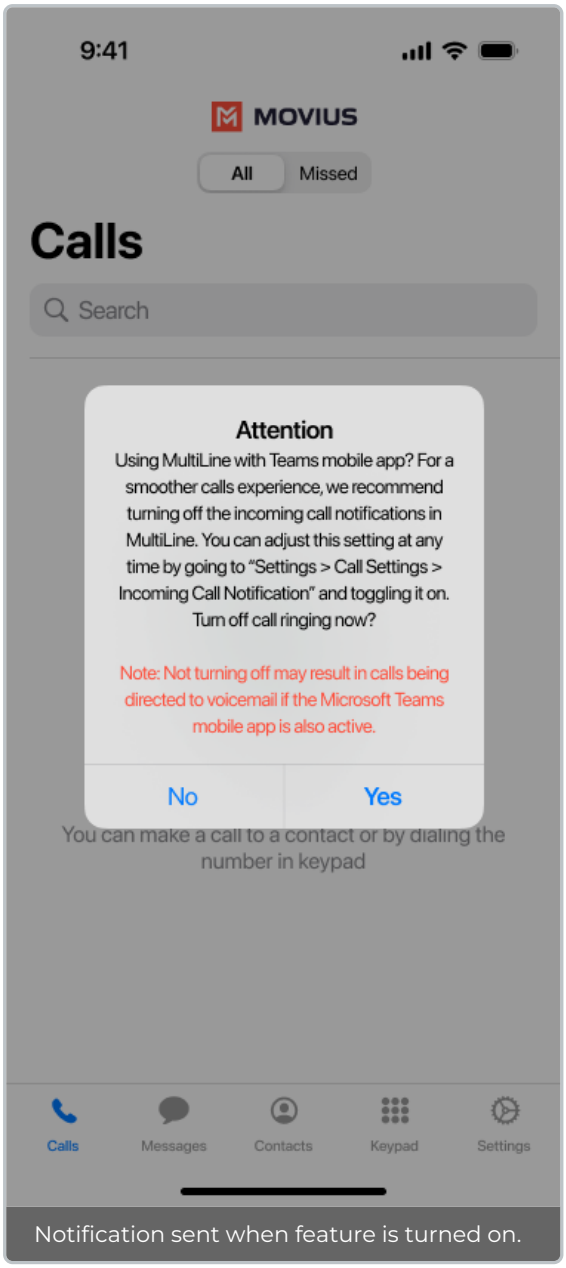
We are updating to support Microsoft Intune App SDK. MultiLine mobile application includes a feature in its interface that allows users to toggle call notifications and ringing on or off. This way, users can choose to answer calls through the Microsoft Teams application based on their preferences set in the call settings.

Ringing and Notification Control - MS Teams and MultiLine mobile app

When a MultiLine user has Microsoft Teams calling activated and both applications (Microsoft Teams and the MultiLine mobile app) installed on their device, they may encounter confusion when receiving a call on their MultiLine number. This is because both applications will simultaneously ring and display call notifications.

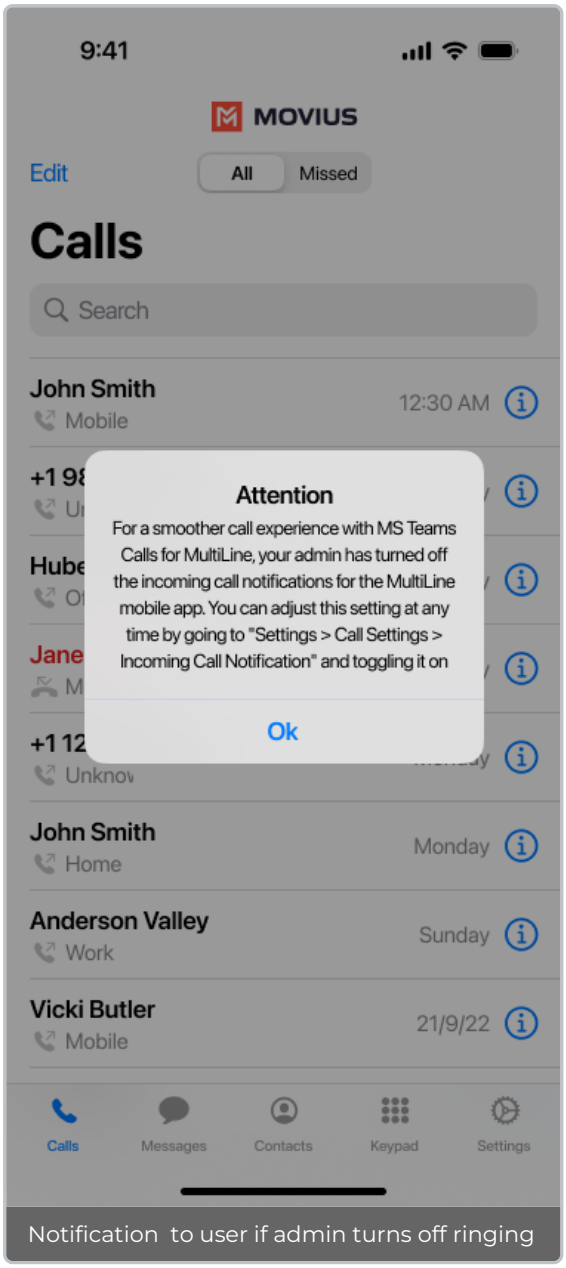
To improve user experience, the MultiLine mobile application includes a feature in its interface that allows users to toggle call notifications and ringing on or off. This way, users can choose to answer calls through the Microsoft Teams application based on their preferences set in the call settings.

MOVIUS



Notification sent when feature is turned on.

MOVIUS



Notification to user if admin turns off ringing
