

# Manage Reserved Numbers

Last Modified on 07/07/2023 2:44 pm EDT

Read this to learn about how to work with reserved numbers, tagging them, editing and deleting tags, etc.

## Overview

Tags put numbers in the Reserved pool. Tags help admins find numbers that are reserved for a specific purpose.

- You're required to add a tag to reserve a number. You can optionally reserve the number for a specific organization.
- You can reserve and unreserve numbers from Number Status and Actions or from Number Management
- When numbers are initially deleted, the admin has a one-time option to tag the number and add a forwarding number. See [Delete user and release, reserve, or forward calls](#) (<https://help.moviuscorp.com/help/delete-user-and-forward-calls>).
  - Note: After completing the deletion, it is impossible to forward a number that didn't initially have a forwarding number attached to it.
  - However, if there is a forwarding number attached at that time, it can be edited or deleted.

## Before you start

- An admin must have "Setup" Role in the organization to do these instructions. See [What Admin Roles are in the Management Portal](#) (<https://help.moviuscorp.com/help/what-admin-roles-mmp>).
