

Customize email invitations

Last Modified on 11/18/2021 1:39 pm EST

Administrators in the Management Portal can customize email invitations. We provide a default email invitation with the required information which you can edit according to the needs of your organization.

Overview

Users receive MultiLine invitations when you add them to an organization. These invitations contain the information users need to download and activate MultiLine and credentials for activating mobile and desktop apps. Some organizations may want to change the default invitation we provide to add their own content or formatting.

Before you Start

- An admin must have "Setup" Role in the organization to do these instructions. See [What Admin Roles are in the Management Portal](#).

How to edit the email invitation template

You can use the editor to add content and formatting to the email.

1. Go to Setup > Administration > Invitation Templates > Email

2. Click **Edit** to make changes. *Note: You must include required variables. See below for list of variables.*
3. Click **Preview Template** to see how edits would look and make sure that parameters are working properly.
4. Click **Save**.

List of invitation variables

Variable Name	Description	Required?
{f_name}	First name of the invited user	No
{L_name}	Last name of the invited user.	No
{app-link}	App link configured by the system administrator. Tapping app link redirects the user to download the app.	No
{qr_code_img}	This is the QR code. Users scan the QR code to automatically download the app (if not already downloaded) and begin activation.	Yes
{sign_in_btn}	This is the "Download and Activate" button. Users tap the button to automatically download the app (if not already downloaded) and begin activation.	No
{u_name}	Email address or mobile number of the invited user.	No
{pwd}	System-generated password for the invited users.	No
{market_code}	Company or Organization ID is automatically defined when the organization is defined.	No

Note: if you do not include {u_name}, {pwd}, and {market_code} variables, your users will not be able to use manual activation.

Tip: Provide help resources to users - It's a good idea to link to our help resources here at <https://help.moviuscorp.com>. Users can also get to help resources within the application in **Settings > Help**.

Your custom MultiLine email invitation is ready!

Any new invitations sent will now have your custom content and formatting.
