Can I upload my mobile MultiLine local contacts or native contacts to MultiLine Desktop?

Last Modified on 11/02/2021 10:22 am EDT

We don't currently support directly uploading MultiLine local contacts or native contacts to MultiLine Desktop. There is no sync between mobile MultiLine local contacts and MultiLine Desktop.

Currently, we support access to Exchange Contacts. If you add your local or native contacts to the Exchange server, you'll be able to use them in MultiLine Desktop.
