

# Why is there a blue BlackBerry floating icon in the Movius app?

Last Modified on 11/02/2021 10:29 am EDT

The Movius for BlackBerry app is integrated with the BlackBerry Dynamics secure environment, separating it from your personal apps and having a blue floating icon that securely connects it with other BlackBerry secure apps.

The best way to make calls with Movius is to go directly through the Movius app and selecting a contact from the Contacts tab.

Movius also supports click-to-dial from BlackBerry Work, so you can conveniently click on a phone number in your BlackBerry Work email or calendar and be able to call directly from the Movius app.
