

# Can Movius for BlackBerry access contacts in the address book in the phone? Can I just go to the contact and dial through Movius for BlackBerry?

Last Modified on 11/02/2021 10:31 am EDT

Movius for BlackBerry users can add contacts using three different contact source settings. In the MultiLine Settings menu, the Contact Settings offer three options for you to select from:

1. Native Contacts: Movius will use the contacts in the address book in the phone. *Note: If this is not an available option for your organization, it will be grayed out.*
2. Local Contacts: Movius will start with an empty list of contacts for you to segregate business contacts into. *Note: If this is not an available option for your organization, it will be grayed out.*
3. Exchange Contacts: Movius will use the corporate contacts and Global Address List as available in BlackBerry Work.

In addition to dialing directly from Movius for BlackBerry, users can click-to-dial with Movius for BlackBerry from BlackBerry Work Contacts, BlackBerry Work E-mail and BlackBerry Work Calendar.

Movius for BlackBerry is designed not to dial from the address book in the phone to meet the imperatives of privacy by design with personal and business separation.
