Movius September 2022 Release Notes

Read on to learn what's new with the API and Management Portal.

Server Release Schedule

Site	Start Date & Time	End Date & Time
SNG01	Friday 23-Sep-2022, 12:00 pm EDT	Friday 23-Sep-2022, 5:30 pm EDT
LON02	Friday 23-Sep-2022, 9:00 pm EDT	Saturday 24-Sep-2022, 02:00 am EDT
WDC06+DAL12	Saturday 24-Sep-2022, 01:00 am EDT	Saturday 24-Sep-2022, 06:00 am EDT

What's new in the Server?

- **Opt-In across different regions** - When MultiLine users from different regions message each other, they are each considered a "guest" user respectively.
If both users were set up with the Opt-In feature, there was an issue with the algorithm allowing both parties to Opt-In when messaging each other for the first time. This issue has been fixed in this release.

What's new in the API?

API Documentation available on request.

- **Accounts API Update** - It is now possible to create a new subscriber account or organization using the Create Accounts API.
 - **List Account Utilization API** - It is now possible to list the usage details of a particular account within an organization on the Movius platform.
-
