Enabling Official WeChat Integration

Last Modified on 02/07/2024 12:00 pm EST

Read on to learn about enabling the Official WeChat Integration.

Overview

To enable WeChat messaging, you must have a WeChat / Tencent official account. Movius requires the below details from the WeChat / Tencent official account to link with the MultiLine service.

Before you begin

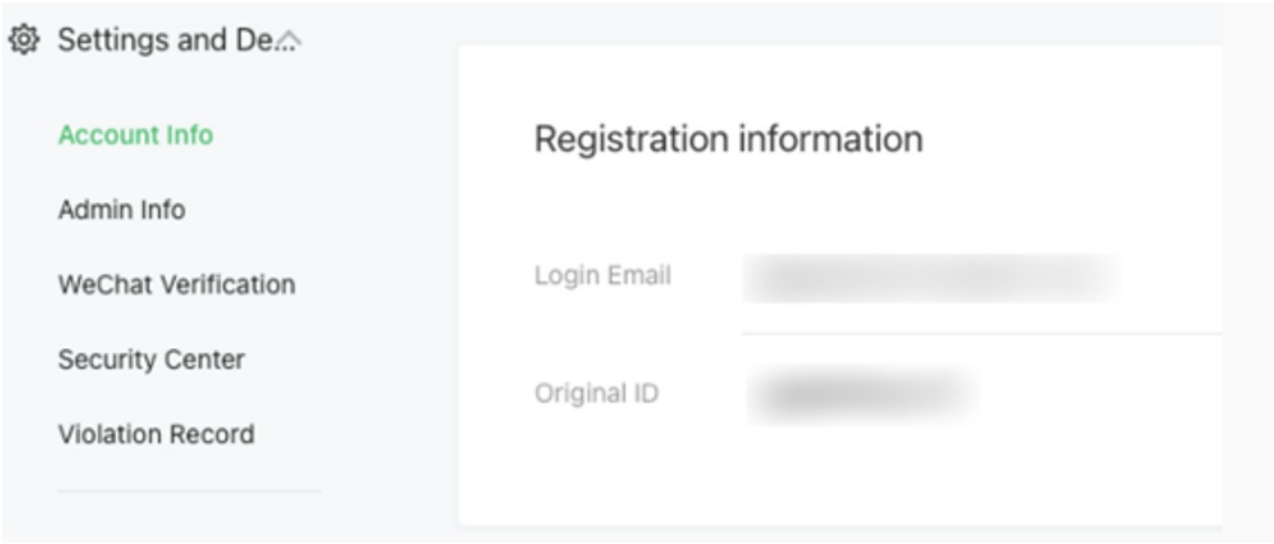
- Additional documentation for WeChat enablement will be provided to you by customer support.

Step 1: Identify your WeChat Official Account admin

If required, businesses can register a WeChat Official Account (Service Account) directly through WeChat at https://mp.weixin.qq.com/.

Step 2: Provide the WeChat Open ID

Go to the **Settings** or **Developer** section of the WeChat Admin Platform to retrieve your Official account open ID (or Original ID).



Step 3: Provide the App ID and Secret

Go to the **Developers Basic Configuration** section of the WeChat Admin Platform to retrieve your app ID and secret.
