

# Why did I see "MultiLine\_Unknown" when receiving a call from my contacts?

Last Modified on 04/12/2023 12:50 pm EDT

When you receive a call from a contact for the first time, instead of the name or number you may see "MultiLine\_Unknown".

Don't worry if this happens, it doesn't mean anything went wrong with your contacts or that you need to take any action. The name or number will appear on any future calls with that contact.
