

Sending Group Messages - Android

Last Modified on 12/13/2023 1:30 pm EST

Read on to learn about sending group messages in the mobile MultiLine Android application.

Overview

You can send group messages by adding multiple participants to the To: list for your message. When users send group messages, all responses can be seen by all members of the group thread.

Before you start

- Currently, group messaging is only available to US and Canada users. If group messages are sent to users outside US and Canada, the users will receive individual messages with no grouping.
- Your organization must allow you to use group messaging for this feature to be available.

How to send a group message

You can send a group message using the Messages feature.

1. Open Messages and tap the **Compose**  button.
2. Enter the name or number and select **Done** or  on your keyboard before adding the next name or number (not the DONE in the upper right).

3. Click **DONE** in the upper right when you've finished adding numbers.
4. Enter your message and tap the **Send**  button.
