

Resend a MultiLine Invitation

Last Modified on 11/17/2023 5:07 pm EST

Read on to learn how to use the **Resend Invite** feature in Management Portal.

Overview

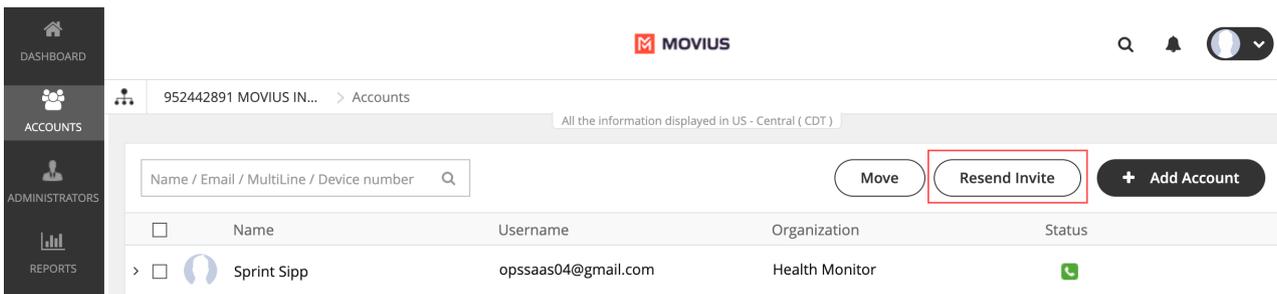

Use resend invitation to send invitations to users you have previously invited or to send invitations to the first time for users that you added without inviting.

Before you Start

- An admin must have "Accounts" Privilege in their Role in the organization to do these instructions. See [What Admin Privileges are in Management Portal?](https://help.moviuscorp.com/help/what-admin-roles-mmp/) (<https://help.moviuscorp.com/help/what-admin-roles-mmp/>).

How to Resend Invitation

1. Select the checkbox next to the User **Name**.
2. Click **Resend Invite**.

The screenshot shows the MOVIUS Management Portal interface. On the left is a navigation sidebar with 'ACCOUNTS' selected. The main content area shows a table of accounts. The 'Resend Invite' button is highlighted with a red box.

<input type="checkbox"/>	Name	Username	Organization	Status
<input type="checkbox"/>	Sprint Sipp	opssaas04@gmail.com	Health Monitor	

- The **Resend Invite** button stays active both in the **Accounts** as well as the **Administrator** pages, irrespective of whether the numbers are available or not.
- Moving the pending invitations from one organization to another will not be allowed if the destination organization does not have enough numbers to onboard.
- If a pending invite (without an assigned number) is moved from one organization to another, and if the destination organization does not have enough numbers available then the **Move** button gets disabled. On selecting the destination organization an error message "Unable to move account(s). You do not have enough numbers available in the selected organization" appears on mouse hover.
