How to install MultiLine for Salesforce

MultiLine for Salesforce Installation Guide for MultiLine Admins

Read this guide to install MultiLine for Salesforce in the Management Portal. For installing the connector in Salesforce see <u>MultiLine for Salesforce Installation Guide for Salesforce Admins</u> (<u>https://help.moviuscorp.com/help/multiline-for-salesforce-installation-guide-for-salesforce-admins</u>).

Overview

A MultiLine administrator in the Management Portal needs to complete these steps to set up MultiLine for Salesforce. To complete integration, some steps will require actions from the Salesforce Administrator.

Before you start

- If possible, perform these steps before adding MultiLine for Salesforce users to the organization.
- An admin must have "Administrators" Privilege in their Role in the organization to do these instructions. See <u>What Admin Privileges are in Management Portal?</u> (https://help.moviuscorp.com/help/what-admin-roles-mmp).

MultiLine for Salesforce Installation

Step 1 - Add the Salesforce Administrator as an API user

Use this section to summarize what users will complete in the following steps.

1. Go to Administrators and click Add API User

A DASHBOARD		💥 First Bank		a 🔺 🚺 🗸
	First Bank > Administrators	All the information displayed in	US - Central (CDT)	
	Administrator Roles and Privileges			
REPORTS	Name / Email Q	Last Sign In	Role	Add New Administrator
¢ SETUP	Michelle Parron		First Bank Reporting	First Bank
() HELP	Deanne Montalbano	TODAY 01:34 PM	Enterprise Super Administrator	First Bank

- 2. Enter the required details for the **Salesforce Administrator** Note: Email address must not be associated with an active MultiLine administrator account
- 3. From the External Applications dropdown select Salesforce
- 4. Click Save
- 5. An email will be sent to your Salesforce Administrator's email entered above containing a temporary password

Salesforce Administrator Action Needed

Before proceeding, the Salesforce Administrator must complete the following steps:

- Getting Started in Salesforce
- Install MultiLine for Salesforce
- Register MultiLine
- Configure MultiLine for Salesforce

Once the Salesforce Administrator actions are complete, you can proceed.

Step 2 - Create User Permissions for MultiLine for Salesforce

- 1. Go to Setup, then User Permissions, and select Add New.
- 2. Edit the feature set according to the permissions the users of MultiLine for Salesforce should have.
- 3. Enter the name as the Permissions set as "MultiLine for Salesforce" and click Save.

Step 3 - Manage Webhook Events

1. Go to Setup and click Webhook Events.

- 2. For every Webhook events displayed, click Edit.
- 3. Under User Permissions select MultiLine for Salesforce and click Save.

Step 4 - Manage MultiLine for Salesforce Users

Now you need to apply the user permissions you created to the user accounts.

Select the tab below according to whether the users that are using MultiLine for Salesforce are

already MultiLine users, or are new users that need to be invited.

For existing MultiLine users

- 1. Navigate to the organization where MultiLine for Salesforce users are provisioned
- 2. Click **Edit** for the user
- 3. Check that the email address is same as their SFDC account.
- 4. Click User Permissions
- 5. Select MultiLine for Salesforce from the dropdown and click Save

For new MultiLine users

1.

Navigate to the organization where your MultiLine for Salesforce users will be.

- 2. Go to Accounts and click Add Account.
- 3. Enter the required details. Note: their email address needs to match their Salesforce email address and must be a valid email address.
- 4. Click **Assign Number**, enter SFDC in the search bar and select a number from the list.*Note: MultiLine for Salesforce numbers are tagged in the system as SFDC*
- 5. Under User Permissions select MultiLine for Salesforce.
- 6. Click Invite.

Salesforce Administrator Action Needed

To complete the MultiLine for Salesforce Integration, the Salesforce Administrator needs to complete these steps:

Manage Licenses and Setup Users

Congratulations!

Once the Salesforce Administrator actions are complete, the integration is finished! When Salesforce users login into Salesforce, they'll see the **MultiLine** utility in the bottom left bar.

After accepting the terms and conditions, they'll be able to use MultiLine.
