MultiLine Voicemail - Microsoft Teams Connector

Read on to learn about listening to voicemails in Microsoft Teams connector.
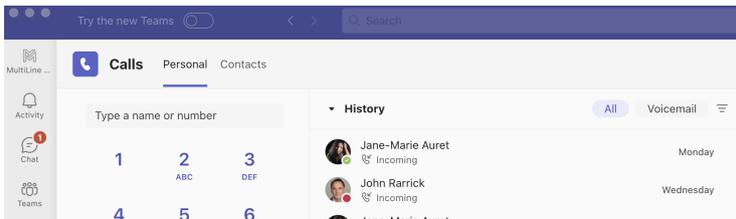

Overview

You can listen to voicemails in Microsoft Teams connector. To set your voicemail message, use the MultiLine mobile app.
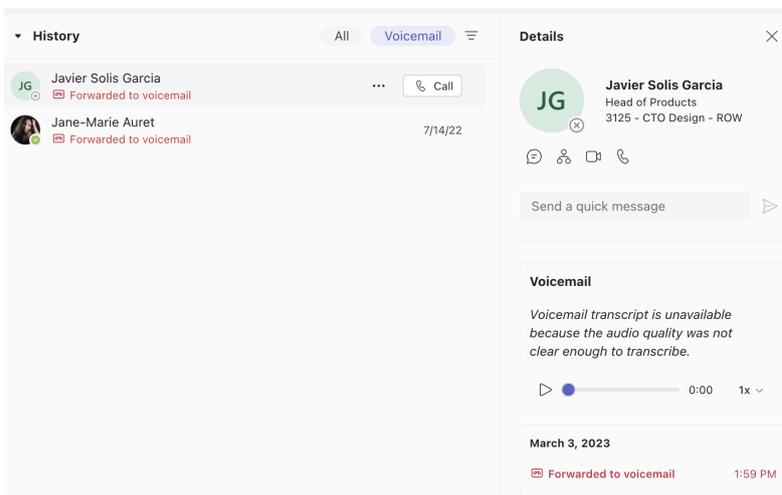

Listen to voicemail

You can listen to voicemails from the Voicemail tab in your call history.

1. Go to **Calls** and select **Voicemail** from the **History** menu.

2. Select the log to access the **Details** panel.

3. Select the **Play** icon under the voicemail transcript to listen to the message.
