MultiLine Activation flows for iOS and Android apps in video format. More coming soon.

Android

Below videos show the MultiLine Activation flow on the Android app.

How to pick your video

Because there are multiple ways that your company can set up MultiLine, we offer different videos.

- **Type** column allows easy communication about the guides available
- **Description** column provides information about the content of the guide
- **App** column tells you which apps are supported (MultiLine, Movius for BlackBerry, MultiLine for Intune)
- **Video** column provides the video

Type	Description	App	Video
A	Manual Activation, Email Invitation	MultiLine	Your browser does not support HTML5 video.
B	SSO Activation, Email Invitation	MultiLine for Intune	Your browser does not support HTML5 video.
