What's New for Movius Release Notes?

Last Modified on 09/25/2024 10:32 am EDT

Learn about new features that make the Movius release notes easier to use. This page will be updated anytime we make a change to the way we do release notes.

- Naming Change (April 2024)
  - Platform Updates are now associated with a Release Version instead of Month Year.
- Content and organization change (May 15, 2024)
  - Redundant contextual information removed from individual notes and placed at the top of a category
  - Added Social Messaging category that showcases new features. *Note: social messaging stories and bug fixes will still be available in app release notes.*
  - Microsoft Teams Voice Integration category showcases new features for Teams Voice Integration.
- T-Mobile MultiLine Release Notes (May 29, 2024)
  - T-Mobile MultiLine Release Notes are now available at https://help.moviuscorp.com/help/t-mobile-multiline-release-notes
- Naming Change (June 5, 2024)
  - Adding 'H' to incremental release names to avoid confusion with build number for internal teams
- Look and Feel Change (September 25, 2024)
  - Created a more graphically interesting landing page for the Release Notes. Let us know what you think!
