

# How to use Movius Release Notes

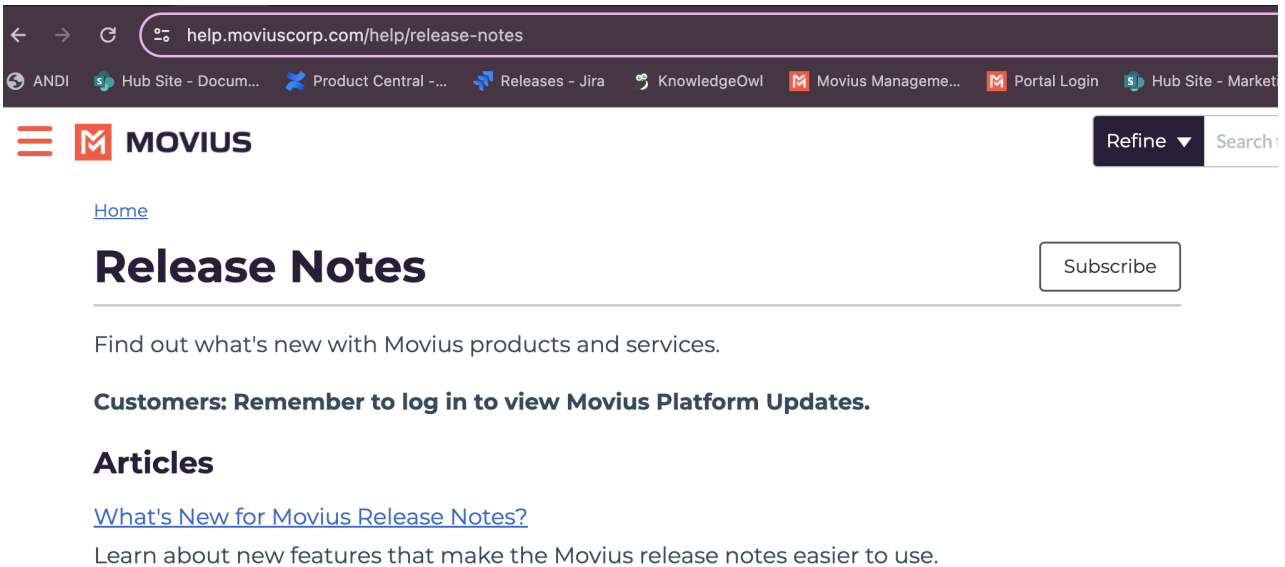

Last Modified on 09/25/2024 10:31 am EDT

Quick tips for using Release Notes effectively.

## Subscribe to Release Notes

As of September 24, 2024, a new view of the Release Notes was launched. Your subscriptions should not be impacted, but when you check your subscription status, it may not be accurately reflected.

- Select the **Subscribe** button on the [Release Notes page](https://help.moviuscorp.com/help/release-notes-5c5cf40)  (<https://help.moviuscorp.com/help/release-notes-5c5cf40>)  and enter your email address to receive notice of new or updated content the following morning at 5AM EST.
- You can also check your subscription status at any time by selecting subscribe and entering your email address.

The screenshot shows a web browser window with the URL [help.moviuscorp.com/help/release-notes](https://help.moviuscorp.com/help/release-notes). The browser's address bar and tabs are visible. The page content includes the Movius logo, a search bar with a 'Refine' dropdown and a 'Search' input field, and a 'Home' link. The main heading is 'Release Notes', followed by a 'Subscribe' button. Below this, there is a paragraph: 'Find out what's new with Movius products and services.' A bolded notice reads: 'Customers: Remember to log in to view Movius Platform Updates.' Under the 'Articles' section, there is a link for 'What's New for Movius Release Notes?' and a paragraph: 'Learn about new features that make the Movius release notes easier to use.'

## Types of Release Notes

- **Movius Platform Updates:** What's new in Management Portal, API, and service updates that prepare MultiLine applications with necessary technology for updates.
  - Note: Access to this content requires log-in.
- **Platform Hot Fixes:** Fixes to Platform Updates that occur outside the planned release schedule.
- **MultiLine App:** What's new for MultiLine, Movius for BlackBerry, and MultiLine for Intune mobile apps and MultiLine desktop apps.
- **App Hot Fixes:** Fixes to App Releases that occur outside the planned release schedule.
- **Microsoft Teams Integration:** What's new in MultiLine Messaging app and Voice Integration (Coming Soon!) in Microsoft Teams.
- **Social Messaging:** What's new for social messaging integration.

- **Salesforce Integration:** What's new in the MultiLine Salesforce utility in Salesforce.
- **Product News:** Important news that falls outside of the Releases, such as known issues and workarounds.

**Note: You must log in to view Movius Platform Updates.**

Movius reserves the right to cancel or postpone the release of any features and to modify release dates. Furthermore, content on this Help Center does not include private customer-specific developments.
