How to use Movius Release Notes
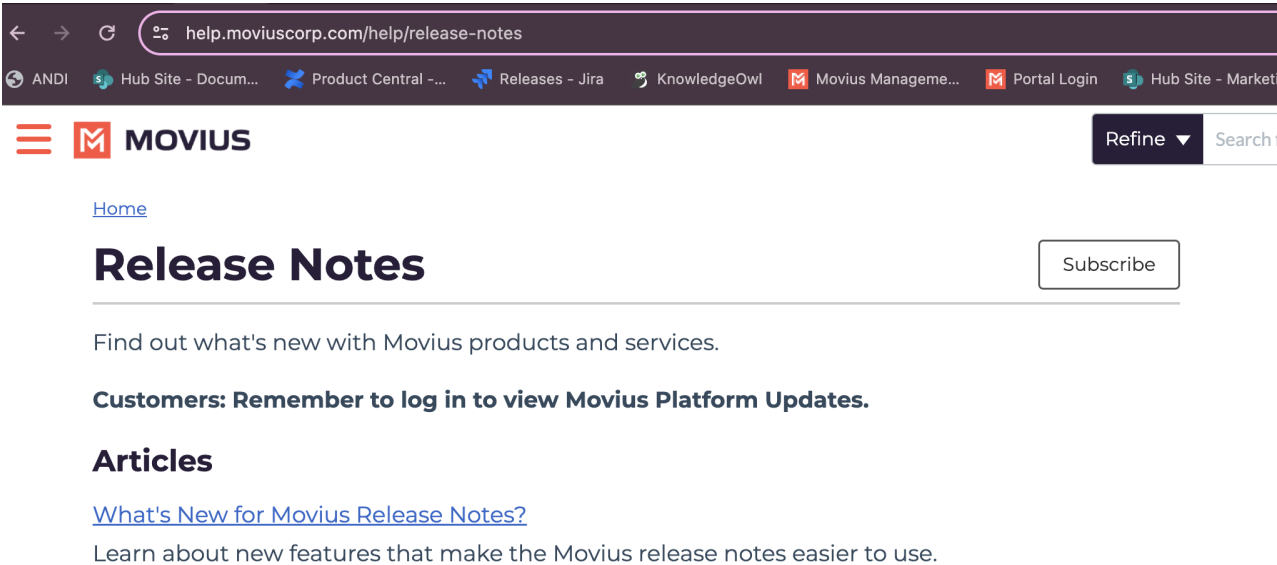

Last Modified on 02/06/2025 1:27 pm EST

Quick tips for using Release Notes effectively.

Subscribe to Release Notes

> As of September 24, 2024, a new view of the Release Notes was launched. Your subscriptions should not be impacted, but when you check your subscription status, it may not be accurately reflected.

- Select the **Subscribe** button on the Release Notes page ↗ (https://help.moviuscorp.com/help/release-notes-5c5cf40) ↗ and enter your email address to receive notice of new or updated content the following morning at 5AM EST.
- You can also check your subscription status at any time by selecting subscribe and entering your email address.

Types of Release Notes

- **Movius Platform Updates**: What's new in Management Portal, API, and service updates that prepare MultiLine applications with necessary technology for updates.
  - Note: Access to this content requires log-in; if you would like to access this content please contact your Account Manager so that they can request access for you.
