

WeChat Messaging - Desktop

Last Modified on 10/29/2024 3:02 pm EDT

Read on to learn about sending WeChat messages in MultiLine Desktop.

Overview

With the WeChat add-on, MultiLine users can message with WeChat users.

Before you start

- Using WeChat from MultiLine Desktop app requires it to be enabled by your MultiLine administrator.
- WeChat users must initiate the conversation.
- WeChat has policies that must be followed by business accounts:
 - WeChat users must initiate conversations with business accounts
 - WeChat will make a chat inactive when:
 - WeChat users do not reply after 48 hours
 - WeChat users do not reply after approximately 5 messages
 - When chats are inactive, MultiLine users will be able to queue up a certain number of messages according to company policy and the WeChat user will be prompted to reinstate the inactive chat. Learn more in the section about Message Queueing.

How it works

In your message threads, the WeChat icon  indicates the conversation is happening on WeChat. Select the message to begin chatting.

You can find your WeChat conversation with a contact by selecting the WeChat icon from the Contact details screen.

WeChat Messaging Experience

Note: The text below is provided as examples; the actual text of auto messages can vary according to the communication policies of the customer.

Initial Interaction

Initial Auto Message to the Customer (WeChat user):

"Thank you! You can now start messaging your contact. Please note, WeChat allows your contact four consecutive replies, including system messages, before requiring a response from you to continue messaging. If the conversation is inactive after 48 hours, your contact will not be able to send any messages until you send a message. To leave the chat at any time, reply with #LEAVE."

Auto Message to Employee:

Please note, WeChat allows you to send four consecutive messages, including system messages, before requiring a response from your contact to continue messaging. If the conversation is

inactive after 48 hours, you will not be able to send any messages until your contact responds.

Message Limit Reached by Employee (after 3 Messages)

Auto Message to Employee (MultiLine user):

"You have reached the maximum limit of three consecutive messages without a response from your contact. You cannot send any more messages until your contact replies."

Auto Message to Customer:

No auto message will be sent to the customer.

After 24 Hours of No Response from Customer

Auto Message to Employee (MultiLine user):

"Your contact has not responded for 24 hours. If no response is received in the next 24 hours, your chat will become inactive until your contact replies"

Auto Message to Customer:

No auto message will be sent to the customer.

If the Message Limit Was Previously Reached

Auto Message to Customer (WeChat user):

"Your contact is unable to send you any more messages, till you respond. Per WeChat Policy, this conversation is on-hold. Please reply to resume"

If Users Have Been Added or Removed During Pause Time

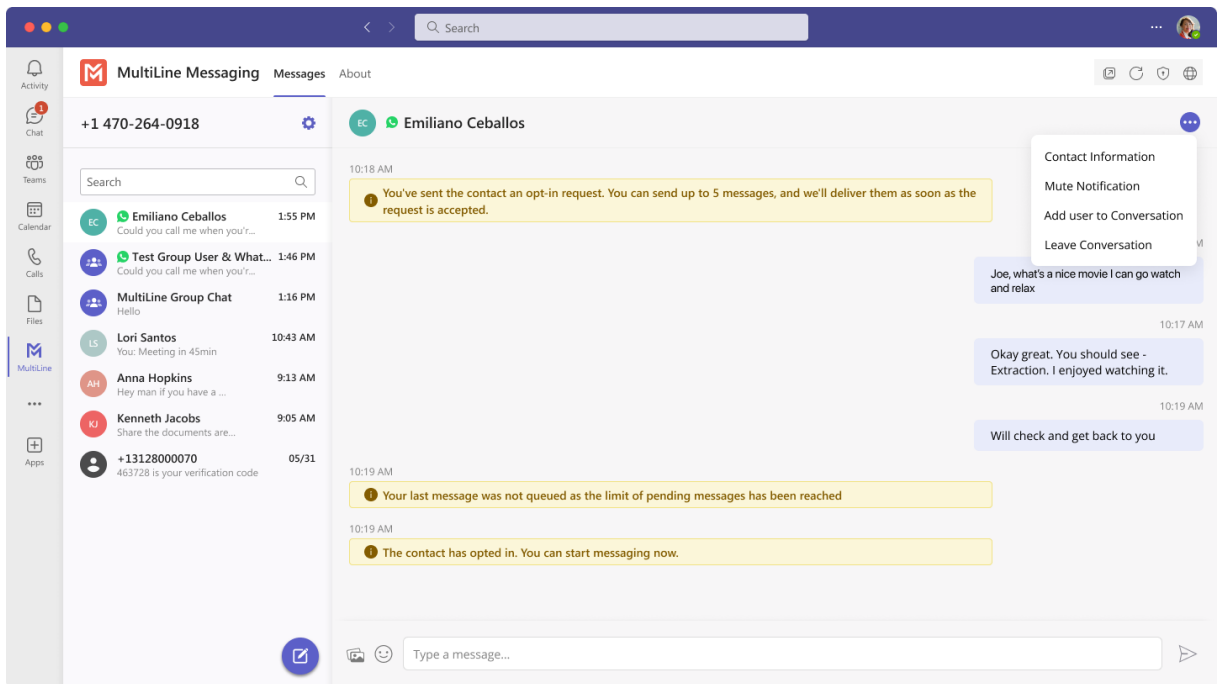

Auto Message to Customer (WeChat user):

"If you do not reply in the next 24 hours, your contact will not be able to send any more messages. To keep the chat active, please reply with any message. Please note: Other user(s) have been added or removed from this chat."

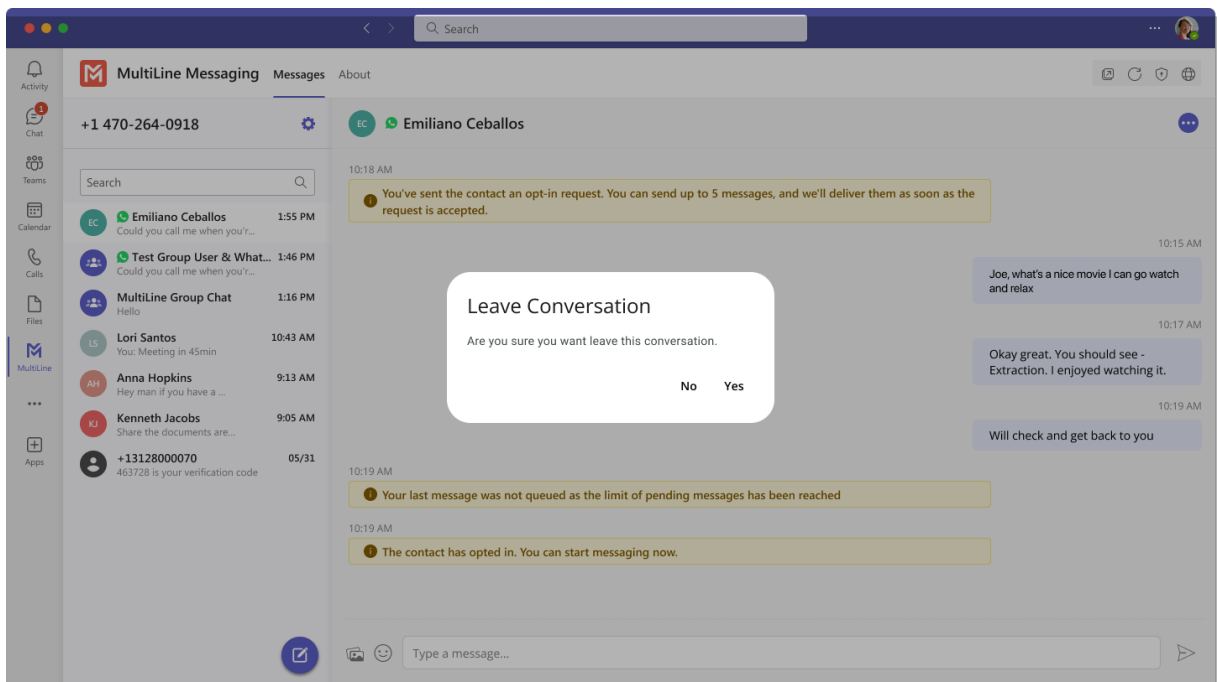

Leave a Conversation

WeChat limits the number of business users who can speak with WeChat users. To allow other people in your business to message with a WeChat user, you can leave the conversation when you're done with your interaction.

1. Select the **Message** menu.
2. Select **Leave Conversation**.

3. Confirm you want to leave the conversation.

When complete, both users will see an automessage letting them know you left the conversation.

MultiLine Messaging Messages About

+1 470-264-0918

Emiliano Ceballos

10:18 AM

You've sent the contact an opt-in request. You can send up to 5 messages, and we'll deliver them as soon as the request is accepted.

10:15 AM

Joe, what's a nice movie I can go watch and relax

10:17 AM

Okay great. You should see - Extraction. I enjoyed watching it.

10:19 AM

Will check and get back to you

10:19 AM

Your last message was not queued as the limit of pending messages has been reached

10:19 AM

The contact has opted in. You can start messaging now.

10:19 AM

You left the conversation..
