

Connect regional sites in Management Portal

Last Modified on 08/30/2024 5:42 pm EDT

Read on to learn about connecting regional sites in the Management Portal.

This feature will be available in Version 4.44.1 of the Management Portal.

Overview

Connecting regional sites allows an admin for global enterprises to securely and seamlessly manage their regional sites.

Before you start

- An admin must have "Setup" Privilege in their Role in the organization to do these instructions. See [What Admin Privileges are in Management Portal?](https://help.moviuscorp.com/help/what-admin-roles-mmp/) [↗](https://help.moviuscorp.com/help/what-admin-roles-mmp/)

Connect regional sites

The admin will edit the top-level organization for one site, generate a key, and then paste the key into the top-level organization for each instance that should be connected. The key will be valid for 30 minutes.

1. Select **Edit** for the top-level organization. See [Manage \(Add, Edit, or Delete\) Organizations](https://help.moviuscorp.com/help/manage-organizations/) [↗](https://help.moviuscorp.com/help/manage-organizations/)
2. Select **Generate Key** and copy the key. *Note: the key is valid for 30 minutes.*
