

Set Contact Sort Order

Last Modified on 12/09/2024 3:24 pm EST

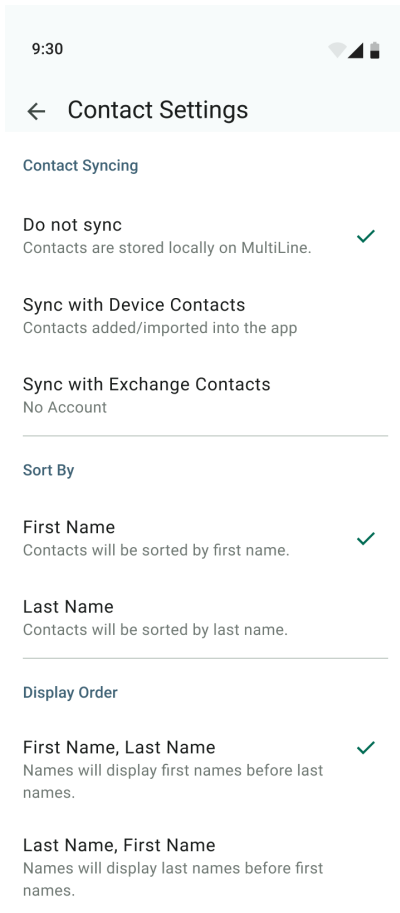

Read on to learn how change the contact list sort order in the MultiLine for Intune Android app.

Overview

You can change the order of contacts in your Contacts list.

Change the Contacts list display and order

1. Go to Settings, then select **Contact Settings**.
 - Sort by first or last name
 - Display first name or last name first

2. When complete, exit the menu and the Contacts list will be in the chosen **Sort by** and **Display order** settings selected.
