Calling from Keypad - MultiLine Android ML/I

Last Modified on 01/20/2025 3:32 pm EST

Read on to learn about making calls in mobile applications.

Overview

There are multiple ways to place a call in MultiLine: from the **Keypad**, from the **Recents** tab, from **Click-to-Dial**, and from your **Contacts** list.
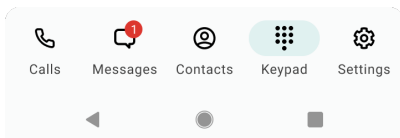

Before you start

- Your organization may enable or disable certain functions, including:
  - Calling, Data/Minutes mode, or WiFi calling
  - Call forwarding or Call handling
  - Call recording
- If you have questions about what functions are enabled, contact your IT group for assistance.
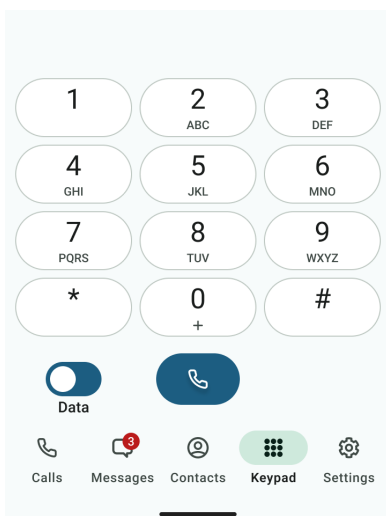

Make a Call from the Keypad

You can dial numbers with the MultiLine keypad.

1. Select the **Keypad** icon in the bottom menu.

2. If you see the toggle to the left of the call icon, you can choose whether to make the call over Data or Minutes (https://help.moviuscorp.com/help/understanding-your-call-settings) by tapping the toggle.

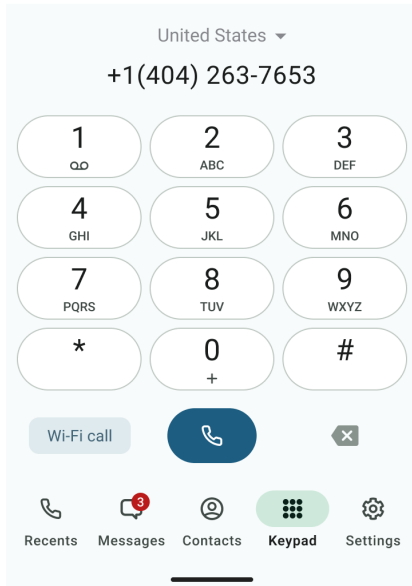

3. Begin dialing or typing the number *Note: tap the country code to change it*

9:30
