

Calls - MultiLine iOS

Last Modified on 02/20/2025 12:53 pm EST

Read on to learn about the Calls screen in MultiLine.

Overview

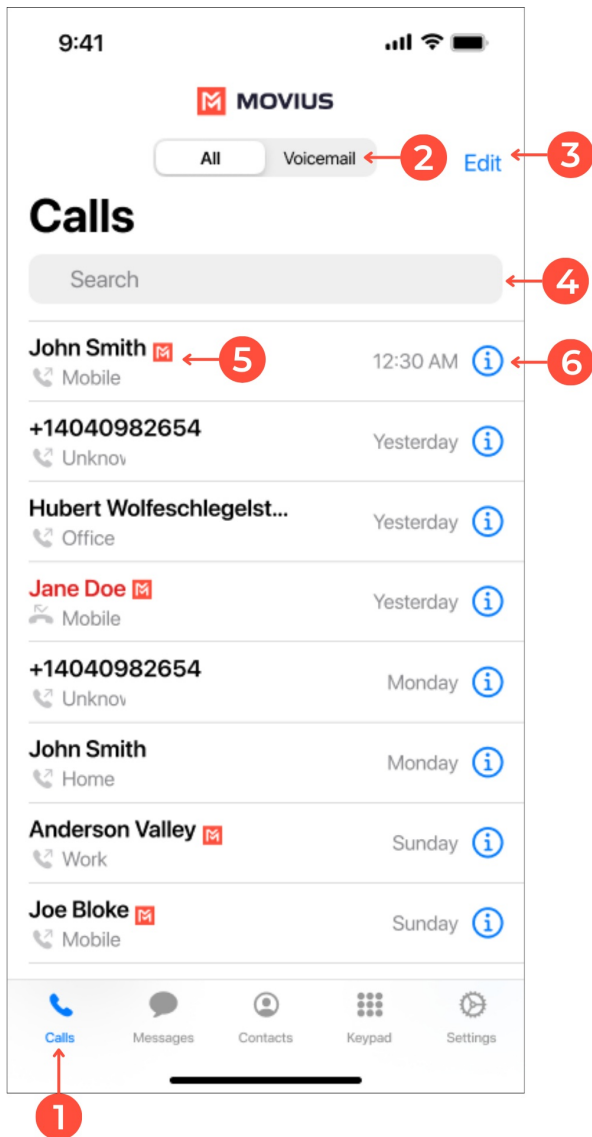

Calls is the first item in the MultiLine menu. This is where you can find information about your recent calls.

Before you start

- Your MultiLine administrator may enable or disable certain features and settings, such as calling according to your company's communication policy.
- If you have questions about what features and settings are enabled, contact your MultiLine administrator for assistance.

About Calls

Calls is the first item in the main MultiLine menu.

1. Access **Calls**
2. To easily see missed calls, select **Missed** at the top (ignore screen error saying Voicemail)
3. Select **Edit** to delete calls from list
4. **Search** bar allows you to pull up matched call information by name, number, or contact details.
5. MultiLine indicator shows you which calls are from Work numbers (see [What does the orange M icon \(MultiLine Indicator\) mean?](https://help.moviuscorp.com/help/what-does-the-orange-m-badge-multiline-indicator-mean/))
6. **Info** icons provide additional info on the call
