## MultiLine iOS App v. 4.12.01 Release Notes

### Target dates for the releases:

- MultiLine for Intune | October 5, 2025
- MultiLine | September 28, 2025

## What's new?

### 1. Satellite Network support

- The MultiLine mobile app now supports Satellite Phone Service on devices with this capability, allowing for seamless connectivity in open areas where traditional cellular or Wi-Fi coverage is not available.
- When connected via satellite, users can send and receive messages via SMS, MMS, WhatsApp, WeChat, and LINE, as well as access voicemail.
- Initially, while on the satellite network, specific functions such as voice calls, Exchange contact sync, and onboarding will be disabled due to satellite bandwidth restrictions.
- The app will provide feedback when these features are unavailable.

### 2. Updated Microsoft Intune SDK

- We've upgraded the Intune SDK to version 21.0.0.

## Bug Fixes

- Fixed an issue that caused the app to unexpectedly close when tapping on the Messages icon.
