

# Version 4.12.01 | iOS MultiLine and MultiLine for Intune Release

Last Modified on 10/09/2025 4:25 pm EDT

## MultiLine iOS App v. 4.12.01 Release Notes

### Target dates for the releases:

- MultiLine for Intune | ~~October 9, 2025~~ New date will be communicated soon.
- MultiLine | September 28, 2025 - **Released**

During internal testing of this new app version, we identified a crash that is currently under high-priority analysis by our engineering team. To ensure stability and a seamless user experience, the release has been temporarily postponed while our team investigates and resolves the issue.

We appreciate your understanding and will communicate a revised release date as soon as the issue is resolved and validated.

Thank you for your continued support.

## What's new?

### 1. Satellite Network support

- The MultiLine mobile app now supports Satellite Phone Service on devices with this capability, allowing for seamless connectivity in open areas where traditional cellular or Wi-Fi coverage is not available.
- When connected via satellite, users can send and receive messages via SMS, MMS, WhatsApp, WeChat, and LINE, as well as access voicemail.
- Initially, while on the satellite network, specific functions such as voice calls, Exchange contact sync, and onboarding will be disabled due to satellite bandwidth restrictions.
- The app will provide feedback when these features are unavailable.

See [Using MultiLine on Satellite Network](https://help.moviuscorp.com/help/using-multiline-mobile-app-on-satellite-network-september-2025) (<https://help.moviuscorp.com/help/using-multiline-mobile-app-on-satellite-network-september-2025>) [🔗](#) for more information.

### 2. Updated Microsoft Intune SDK

- We've upgraded the Intune SDK to version 21.0.0.

## Bug Fixes

- Fixed an issue that caused the app to unexpectedly close when tapping on the Messages icon.
- Resolved an issue that led the app to close shortly after it was opened.
