

Version 4.12.01 | Android MultiLine and MultiLine for Intune Release

Last Modified on 09/22/2025 5:04 pm EDT

MultiLine Android App v. 4.12.01 Release Notes

Target dates for the releases:

- MultiLine for Intune | October 5, 2025
- MultiLine | September 28, 2025

What's new?

1. Satellite Network support

- The MultiLine mobile app now supports Satellite Phone Service on devices with this capability, allowing for seamless connectivity in open areas where traditional cellular or Wi-Fi coverage is not available.
- When connected via satellite, users can send and receive messages via SMS, MMS, WhatsApp, WeChat, and LINE, as well as access voicemail.
- Initially, while on the satellite network, specific functions such as voice calls, Exchange contact sync, and onboarding will be disabled due to satellite bandwidth restrictions.
- The app will provide feedback when these features are unavailable.

See [Using MultiLine on Satellite Network](https://help.moviuscorp.com/help/using-multiline-mobile-app-on-satellite-network-september-2025) (<https://help.moviuscorp.com/help/using-multiline-mobile-app-on-satellite-network-september-2025>) [🔗](#) for more information.

2. Improved Country Code search

- Users can now search for a country by its name or code number when using the country code selector in the keypad or while adding/editing a contact.

Bug Fixes

- Minor bug fixes to improve performance.
