

m-Connect-messaging-Version-1.6.1-release-notes

Last Modified on 10/06/2025 9:01 am EDT

This is the content for the latest release of m-Connect-messaging

Release Date	October 7th, 2025

Native WhatsApp Onboarding Error Handling Improvement

We are rolling out a new onboarding experience for **WhatsApp Capture** aimed at improving **error handling** and user guidance. This update addresses common issues encountered during the onboarding process and introduces new features to streamline user setup.

- **Improved Error Messaging**: Users will now receive clearer, more descriptive error messages to help identify and resolve onboarding issues such as expired OTPs or QR code generation failures.
- **Guided Onboarding Flow**: The onboarding journey has been refined to better support users through each step, improving overall success rates.

Native WhatsApp Onboarding Email & SMS Notification Improvement

We've enhanced the email and SMS notifications used during the onboarding and re-onboarding process for Native WhatsApp to improve clarity and user experience. These updates ensure users are better informed about the compliant nature of the Movius-provided WhatsApp solution.

- **Onboarding Notifications**: Email and SMS content has been updated to be cleaner and more informative, clearly indicating that onboarding is occurring on a Movius-provided compliant WhatsApp solution.
- **Re-Onboarding Notifications**: Similar improvements have been made to re-onboarding messages to reinforce compliance and clarity.
- **OTP Notifications**: The content of OTP-related emails and SMS messages has also been refined to improve readability and user guidance.
