

# Native WhatsApp Compliance Solution-Version-1.7-Release-Notes

Last Modified on 11/20/2025 10:48 am EST

This is the content for the latest release for Native WhatsApp Compliance Solution.

Release Date	November 20, 2025
--------------	-------------------

## Infrastructure Upgrade & Database Migration

We are enhancing our backend infrastructure by migrating core services to Amazon RDS. This upgrade is designed to improve performance, reliability, and long-term scalability of the platform.

- These changes are foundational and do not affect how customers access or use the application.
- No customer action is required, and all services will remain fully operational throughout this update.
