Last Modified on 12/03/2025 9:59 am EST

This is the content for the latest release for Native WhatsApp Compliance Solution.

Release Date	Dec 6, 2025
--------------	-------------

Enhanced Onboarding & Security Improvements

This release focuses on improving the onboarding experience for Android users on WhatsApp, aligning it with the existing iOS experience. Additionally, we have implemented a security fix to strengthen the platform's security posture.

Key Enhancements

1. Enhanced Onboarding Experience

- New Onboarding Screens for Android users:
 - Step-by-step guidance for downloading WhatsApp.
 - UX cues for linking the device with the Movius platform.
 - Instructions for setting up a greeting message.
- Consistency Across Platforms: iOS users will continue to have the same guided experience.
- Applicability: Available for:
 - New users during initial setup.
 - Existing users who are re-onboarding.

2. Security Fix

- Improved security measures to safeguard customer communications.
- Reinforces our commitment to maintaining a secure environment for all users.
